

| Number | Title |
|--------|--|
| STS001 | Addressing the challenges posed by external statistics |
| STS002 | Statistics & Cosmetics |
| STS003 | New prospects for the compilation of sectoral financial accounts |
| STS004 | Hydrological Analysis- A Regional Approach |
| STS005 | Statistical Disclosure Control - Methods and Applications |
| STS006 | Recent Advances in Statistical Methods for Large Scale Correlated Phenomena |
| STS007 | Open the Data Revolution: Measuring the openness of national statistical systems and planning for improvements |
| STS008 | Recent Advances in Nonparametric Change-point Inferences for nonstationary data. |
| STS009 | Urn Models |
| STS010 | Consistency of National Accounts and Balance of Payments |
| STS011 | EnviBayes Presents: Joint Species Distributions and Community Modeling |
| STS012 | Modeling complex passively and actively collected data |
| STS013 | Methodology and Practice of Earning and Income from Employment Statistics |
| STS014 | Recent Developments in Dynamic Treatment Regimes |
| STS015 | Knowledge-based Statistical Methods in Innovative Data Science |
| STS016 | Challenges and options of the collection of granular data on credit and credit risk |
| STS017 | Falsifications in socio-economic statistics and counter measure techniques |
| STS018 | Diary-based surveys: methodological challenges and new solutions |
| STS019 | Issues in spatial and temporal data modeling with applications in the environment and geosciences |
| STS020 | Designing and Analyzing Cost-Efficient Experiments for Biomedical and Engineering Practitioners |
| STS021 | From big data to Smart Statistics |
| STS023 | Evaluation of Bayesian Geospatial Methods to Generate Sub-national prediction of global health issues in Sub-Saharan Africa based on complex survey data |
| STS024 | The Use of Statistics in Human Rights, Humanitarian, and Developmental Projects World-Wide |
| STS025 | Measuring services trade in the globalised world |
| STS026 | Measurement of Tourism Satellite Account for Policy and Business Analysis |
| STS027 | Big Data Analytics: An Insight for Policy and Decision Making |
| STS028 | Advances in Bayesian Modeling for Novel Application Areas |
| STS029 | Advances on Non-parametric Statistics |

| Number | Title |
|--------|---|
| STS030 | Building and financing statistical capacity to measure SDGs |
| STS031 | Evolution of Random Systems. Statistical Models in Simulation |
| STS032 | The benefits of regional programs/initiatives on statistical cooperation: some evidences drawn from the field |
| STS033 | The use of new technologies, new techniques and new data sources for transport and mobility statistics in the Mediterranean region. |
| STS034 | Population Size Estimation in Official Statistics |
| STS035 | Strategies and methods for dealing with population over-coverage in administrative data |
| STS036 | Celebrating 35 Years of Danny Pfeffermann's Contributions to Modern Survey Sampling |
| STS037 | Determinants of International Migration in the Middle East and North Africa: Insights from the MED-HIMS Surveys |
| STS038 | The Statistical Business Registers |
| STS039 | Recent Advances in High-Dimensional Time Series Analysis and Applications to Brain Imaging |
| STS040 | Spatio-Temporal Modeling for Environmental and Ecological Applications |
| STS041 | Subnational Purchasing Power Parity in the 2017 ICP cycle for emerging economies |
| STS042 | Potential Challenges to The Sustainable Development of emerging nations? Economic measurement |
| STS043 | Shared Tools for Computing with Data in Official Statistics |
| STS044 | Applications of scoring rules to inference, prediction and model selection |
| STS045 | Economic and Productivity Growth: Convergence, Slowdown, and Explanations |
| STS046 | Age and Gender-Specific Poverty - addressing the statistical challenge embedded in Goal 1 of the Sustainable Development Agenda |
| STS047 | Modernising Official Statistics with the Common Statistical Production Architecture |
| STS048 | Household panel surveys: Morocco's experience in monitoring and evaluating human development |
| STS049 | Recent Advances in Count Data Regression |
| STS050 | The Challenges of Improving Statistical Literacy in Developing Countries |
| STS051 | Towards a Digital Communication Strategy for Statistics |
| STS052 | Dependence modeling and applications |
| STS053 | On functional and shape analysis |

| Number | Title |
|--------|--|
| STS054 | Recent Advances in Analysis and Modeling of Time Series Data with High Complexity and Dimensionality |
| STS055 | Benchmarking gender matters on basis of statistics. |
| STS056 | Statistical modelling of HIV, TB, Vector Borne and other Infectious and non-infectious diseases in Africa and the Middle East |
| STS057 | Integrating capability elements to enhance the general value of assets and skills within Statistical Institutes |
| STS058 | Identification and Control of Response and Non-response Errors in Surveys |
| STS059 | Improving surveillance of the money markets |
| STS060 | Recent econometric/statistical approaches in Environmental modeling |
| STS061 | Recent advances in data fusion methodology |
| STS062 | African Data Initiative |
| STS063 | Transformative agenda in statistics and capacity building of NSS |
| STS064 | Challenges and Solutions for Building Statistics Capacity in Developing Countries |
| STS065 | Focussing on pillars which make Modernisation Strategies operational: some National Statistical Institutes experiences |
| STS066 | Statistical models and applications of heavy tailed variables and processes |
| STS067 | Monetary and Economic Statistics in Data Rich Environments |
| STS068 | Challenges in Experimental Design and Statistical Quality Control |
| STS069 | Statistical Data and Metadata eXchange (SDMX), a global standard for quality statistics |
| STS070 | The role of the Regional Statistical Training Centers (RSTCs) in building a statistical capacity and literacy: A panel Discussion |
| STS071 | Drowning in dashboards? New methodological research going behind Micro and beyond Macro for statistical indicators |
| STS072 | Modeling the changes in hydro-meteorological variables using functional data analysis with the application to the climate phenomenon in Malaysia |
| STS073 | Voluntary vs Mandatory Surveys: What are the Challenges? |
| STS074 | The Value and costs of national and international statistics |
| STS075 | Statistics in High dimension and applications(double) |
| STS076 | Unconventional modeling and estimation with applications |
| STS077 | Recent developments in time series modelling and applications |

| Number | Title |
|--------|---|
| STS078 | Bayesian inference for Markov processes: challenges and solutions |
| STS079 | The Analysis and comparisons of Poverty Levels and Indicators in 'real terms' by using the Purchasing Power Parities: methodological problems and applications |
| STS080 | Full International and Global Accounts for Research in Input-Output Analysis: EU input to the Trade in Value Added Statistics |
| STS081 | Measuring social protection and decent employment in agriculture and rural areas |
| STS082 | High Performance Computing Solutions to Computationally Efficient Application of Bayesian, Regularization and Ensemble Learning Methods for Big Data |
| STS083 | Innovative Bayesian Semiparametric Methods in Applied Biostatistics |
| STS084 | Meta-Analysis: Divide and Conquer then Unite |
| STS085 | Detection and Handling of Outliers in Big Data |
| STS086 | Assessing the quality of population censuses: processes and outputs |
| STS087 | Model specification tests |
| STS088 | Stochastic Modeling with Applications in Biomedical Science |
| STS089 | Understanding informality, poverty and inequality nexus in Africa |
| STS090 | The use of leading indicators to anticipate economic activity |
| STS091 | Improving the Relevance of Agricultural Statistics through Integration |
| STS092 | Les statistiques agricoles, entre méthodologies et spécificités sociales et agro écologiques |
| STS093 | Practical applications of micro-macro linkages and networks in policy analysis |
| STS094 | Measuring poverty, precarity and social exclusion in Africa in terms of the Sustainable Development Goals 2030 (SDGs) |
| STS095 | Bayesian small area estimation |
| STS096 | Direction of Dependency and Causality |
| STS097 | Statistical knowledges and curricula practices: perspectives and challenges at school and at university |
| STS098 | Better statistics for a globalised world |
| STS099 | Statistical thinking through student work with real-world data leading to an understanding of evidence-based policy decision and the role of statistics in civil society. |
| STS100 | Topics in directional statistics |
| STS101 | Active Learning and Sequential Experimental Design in Big Data Analysis |
